DATA ARE NOT FOR USE FOR ANY LEGAL INTERPRETATIONS

Final figures may not exactly total up because of rounding and database used to calculate figures.

The price/pound is based on exvessel prices from the 2001 Commercial Operators Annual Report when more than 4 processors purchased a species. Regional or statewide COAR prices are used when the specific area-fishery prices on COAR are confidential. A weighted average exvessel price from COAR is used when regional and statewide COAR prices are confidential.
